

Bhanu Prasad Pochannapeta

Tax Technology Associate | Tax Software QA | U.S. Tax Compliance

bhanuprasad26dec@gmail.com | 7673979723 | Hyderabad | LinkedIn | Portfolio | GitHub

SUMMARY

Tax Technology Associate with 4+ years of experience specializing in U.S. Tax Compliance, Tax Software Quality Assurance, Tax Form Development, and enterprise tax technology solutions. Experienced in validating tax software for federal and multi-state filing requirements, XML/XSD schema verification, IRS MeF e-file compliance, print compliance, and regulatory testing across enterprise tax platforms including Intuit and H&R Block. Currently contributing to Tax Technology initiatives at PwC, supporting software quality, tax calculations, form development, and compliance-driven product releases. Passionate about leveraging Python, Artificial Intelligence, and automation to build scalable, intelligent tax technology solutions while continuously expanding expertise in software engineering, enterprise application development, and modern automation practices, with a strong commitment to continuous learning and innovation.

TECHNICAL SKILLS

Programming & Automation

Python, XML, XSD, JSON, AI Prompt Engineering, Automation Fundamentals

Development Tools & Platforms

Git, GitHub, Visual Studio Code, Jira, Azure DevOps (ADO), Altova XMLSpy, XML Notepad, Notepad++, Jenkins, DNA

Software Testing

Functional Testing, Regression Testing, Smoke Testing, Integration Testing, Test Case Design, Software Validation, Defect Lifecycle Management, Root Cause Analysis, E-File Validation

Tax Technology

Tax Form Development, Tax Calculation Validation, Calc Stories, IRS MeF E-File Compliance, Print Compliance, XML Schema Validation, ATS Validation, 2D Barcode Testing, Field Value Comparison (FVC), Form Mapper Testing

Tax Software

Intuit Lacerte, Intuit ProSeries, H&R Block (HRBS), Drake, GoSystem

CORE COMPETENCIES

Tax Technology, Tax Software Quality Assurance, Tax Form Development, Enterprise Software Testing, Functional Testing, Regression Testing, Integration Testing, XML/XSD Schema Validation, IRS MeF E-File Compliance, Print Compliance, Tax Calculation Validation, Software Defect Analysis, Root Cause Analysis, Defect Lifecycle Management, Cross-Functional Collaboration, Analytical Problem Solving, Release Validation, Regulatory Compliance

PROFESSIONAL EXPERIENCE

PwC India, Associate - Tax Technology

Jul 2026 – Present | Hyderabad, India

Client: Intuit Inc. | ProTax Project (Lacerte & ProSeries)

- Contributing to enterprise Tax Technology initiatives supporting tax software development and compliance-driven product releases.
- Supporting tax form development, print compliance, IRS MeF e-file validation, and regulatory testing across enterprise tax workflows.
- Collaborating on tax calculation validation and Calc Stories to ensure software accuracy, consistency, and regulatory compliance.
- Partnering with developers, business analysts, and quality assurance teams to validate software enhancements and production releases.
- Participating in software defect analysis, release verification, and quality assurance activities while maintaining enterprise quality standards.
- Continuously expanding expertise in Python, Artificial Intelligence, and automation to support modern Tax Technology solutions.

CriticalRiver Technologies Pvt Ltd, Tax Analyst

Aug 2025 – Jun 2026 | Hyderabad, India

Client: Intuit Inc. | ProTax Project (Lacerte & ProSeries)

- Delivered end-to-end software quality assurance for enterprise tax software supporting U.S. federal and multi-state tax compliance.
- Performed functional, regression, and compliance testing across Graphic Rollovers, OSI updates, Input Sheet enhancements, and tax software releases.
- Validated XML/XSD schema integrity and IRS MeF e-file outputs using Altova XMLSpy to ensure regulatory compliance before production deployment.
- Verified tax calculations, print forms, and 2D Barcode generation while maintaining 100% Print Form Approval across multiple tax years.
- Managed the complete defect lifecycle through Jira, collaborating with onsite and offshore development teams to resolve software issues efficiently.
- Executed ATS testing across multiple states and validated tax forms covering Individual (1040), Corporation (1120), S-Corporation (1120-S), Partnership (1065), Fiduciary (1041), and Estate & Trust filing scenarios.
- Received formal recognition from the Intuit US Plano team and Bangalore Nexus for delivering high-quality software testing and compliance support.

Speridian Technologies Pvt Ltd, Tax Analyst

Oct 2023 – Jun 2025 | Bangalore, India

Client: H&R Block | HRBS Project (May 2024 – June 2025)

- Led state tax certification activities for Kentucky and Utah by coordinating Tax Sample Requests (TSRs), software validation, and Department of Revenue approval processes.
- Performed Field Value Comparison (FVC), Form Mapper validation, XML verification, and tax software quality assurance to ensure data integrity across H&R Block platforms.
- Developed Python-assisted validation utilities for tax table and tax rate verification, reducing repetitive manual testing effort by approximately 30%.
- Developed ATS returns and Limit Documentation (LD) to support state certification and software release readiness.
- Collaborated with development and product teams to validate tax software functionality across multiple annual tax releases.

Client: H&R Block | OLA Project (Nov 2023 – April 2024)

- Provided live support to U.S. taxpayers by resolving federal and state tax filing queries while ensuring IRS compliance.
- Identified software issues affecting tax filing workflows and collaborated with technical teams for timely resolution.
- Maintained up-to-date knowledge of annual tax law changes to provide accurate filing guidance throughout the tax season.

KHOB Solutions Pvt Ltd, Senior Tax Analyst

- Prepared and reviewed over 2,000 U.S. individual income tax returns including Forms 1040, 1040NR, W-7 (ITIN), and FBAR with a strong focus on accuracy and compliance.
- Researched IRS regulations, tax codes, and state filing requirements to identify eligible deductions, credits, and tax-saving opportunities.
- Resolved IRS and state tax notices by coordinating directly with government agencies and supporting clients through audit and compliance processes.
- Verified tax return accuracy before electronic filing, ensuring complete regulatory compliance and minimizing filing errors.

Oct 2021 – Sep 2023 | Hyderabad, India

PROJECTS

Professional Portfolio Website

Designed and developed a responsive personal portfolio website using Next.js, React, Tailwind CSS, and GitHub Pages to showcase professional experience, technical expertise, enterprise projects, and career progression. Implemented modern UI/UX principles, smooth animations, responsive layouts, and optimized performance while demonstrating front-end development capabilities and personal branding.

Tech Stack: Next.js, React, Tailwind CSS, TypeScript, Git, GitHub Pages, Visual Studio Code.

PROFESSIONAL DEVELOPMENT

- Continuously enhancing expertise in Python programming, Artificial Intelligence, and automation to build scalable enterprise Tax Technology solutions.
- Actively learning modern software engineering principles, automation practices, and emerging technologies to support enterprise application development.

KEY ACHIEVEMENTS

- Selected among the Top 10 professionals from a contractor pool of 100+ associates for full-time conversion based on consistent performance and quality contributions.
- Maintained a 100% Print Form Approval record across multiple federal and state tax software releases without regulatory compliance failures.
- Reduced repetitive manual tax table and tax rate validation efforts by approximately 30% through Python-assisted validation approaches.
- Successfully delivered software quality assurance support across multiple U.S. states and tax years while meeting critical enterprise release timelines.
- Recognized by the Intuit US Plano team and Bangalore Nexus for exceptional quality, ownership, and commitment to software delivery excellence.

EDUCATION

Master of Business Administration - Finance, *Dr BR Ambedkar Institute of Management and Technology*

2023 – 2025 | Hyderabad, India

Bachelor of Commerce - Computers, *Keshav Memorial Institute of Commerce and Science*

2018 – 2021 | Hyderabad, India
